the book provides both a legal and economic assessment of an increasingly important issue for the eu the question of whether individuals can hold the european union liable for damages they suffer due to its infringement of international economic law however liability regimes vary depending on the issue concerned in international trade law the individual holds a weak position being deprived of both legal remedies to seek annulment and damages this is due to the constant refusal of the direct effect of wto law by contrast international investment law has been designed in an individualistic manner from the outset states agree reciprocally to grant certain procedural and substantial individual rights which they invoke to claim damages before international tribunals rather than domestic courts the divergent role of the individual in the respective area of international economic law leads to a different set of research questions related to liability in international trade law the doctrinal exercise of de coupling the notion of direct effect from liability is at the core of establishing liability in international investment law liability is connected to a number of issues emerging from the recent transfer

of competence pertaining to investment issues from member states to the eu and the nature of investment agreements as mixed agreements against this backdrop exploring liability issues in the area of international economic law reveals a heterogeneous set of questions depending on the area of law concerned thus offering different perspectives for studying liability issues this title is included in bloomsbury professional s international arbitration online service

interest in economics is at an all time high among the challenges facing the nation is an economy with rapidly rising unemployment failures of major businesses and industries and continued dependence on oil with its wildly fluctuating price americans are debating the proper role of the government in company bailouts the effectiveness of tax cuts versus increased government spending to stimulate the economy and potential effects of deflation economists have dealt with such questions for generations but they have taken on new meaning and significance tackling these questions and encompassing analysis of traditional economic theory and topics as well as those that economists have only more recently addressed 21st century economics a reference handbook is intended to meet the needs of several types of readers undergraduate students preparing for exams will find summaries of theory and models in key areas of micro and macroeconomics readers interested in learning about economic analysis of an issue as well students embarking on research projects will find introductions to relevant theory and empirical evidence and economists seeking to learn about extensions of analysis into new areas or about new approaches will benefit from chapters that introduce cutting edge topics to make the book accessible to undergraduate students models have been presented only in graphical format minimal calculus and empirical evidence has been summarized in ways that do not require much background in statistics or econometrics it is thereby hoped that chapters will provide both crucial information and inspiration in a non threatening highly readable format
